

PORSCHE 911 SWB 2.0

Unique opportunity!

Original 1965 Porsche 911 SWB (short wheel base) 2.0 coupe.

This project car wears Vin code : 302787

It was built October-November 1965.

Production run in 1965 went from vin code: 300236 till 303391.

The date of first registration was 08/06/1966. During 1998 the car was imported into the Netherlands. Where this swb coupe had his last APK (technical check) during February 2015. Then it was imported into Belgium. The last owner handled the car to a Porsche specialist for a full restoration. During 2015-2017 the car was dismantled and the body was restored. All rust prone areas were restored according the rules of craftsmanship. Using as much as possible the original body work. Of course the body needs finishing and all mechanical parts need a rebuild. But that is up to you !

The pictures give you a clear indication of all parts that are with the car. There is no original 2.0 liter engine and gearbox. For the rest it is really pretty complete.

So if you are looking around for a 1965 Porsche 911 swb 2.0 coupe whose "hard work" is already done contact us for an appointment. During a visit in our showroom you can investigate the quality of the bodywork and the completeness of the parts.
