

## FIAT 2300 S COUPE "ABARTH"

Rare to find and original red 1964 Fiat 2300 S Coupe Abarth. (Tipo 114BS) With a beautiful black interior with a nice patina. Power comes from the more powerful matching "Abarth" tuned 6 cylinder in line engine type 114B006 equipped with double twin choke Weber 38DCOE carburetors and reworked cylinder head by Abarth producing 136 hp. Giving this coupe a top speed of 200 km/h. Attached to a 4 speed all synchromesh manual gearbox and four wheel disc brakes to provide the stopping power.

The Fiat 2300 range included this Ghia designed grand tourer. Having developed the coupé body Ghia lacked the production capacity needed for the volumes and were obliged to subcontract its production to OSI. Inside the 2300 coupe featured power operated windows, a beautiful and original lovely wooden Nardi steering wheel and the dashboard is generously equipped with Veglia instruments and other luxury fittings like an airplane-style footrest for the passenger. And an extra set of fog lamps

This particular car is very sound. It is an older restoration with some user marks but with a very sound and strong body. Engine is very strong and revs freely, gearbox is smooth and the disc brakes are adequate. Everything works and it is a very pleasant car to drive.

Hard to find in this overall good condition. As you can see on the yellow headlamps and number-plate the car has been driving in France in the department Var (St Tropez- St Maxime- Toulon). A real gentleman coupe with lots of room for 4 passengers inside and a big luggage room

# CAR CAVE

in the trunk. Perfect for long distance travelling.

The Fiat 2300S Abarth is much more than a poor man's Ferrari 2+2. It is a beautiful interpretation of the Italian GT experience.
