

LOTUS ELAN S4

LOTUS ELAN S4 1558 STR 4 DOHC

Lotus Elan S4 from 1968. Regarded by many as THE classic car one should own or at least have owned once in their life! Certainly one of England's car icons. Light and very agile it drives fantastically, especially this model which was converted from a street car to a semi-rally/hillclimb car. Thus benefitting from a galvanised chassis, suspension and engine improvements/parts from a 26R. Recently benefitted from a respray, new brakes, new wheels (the originals are included in the sale as are many other spare parts) and engine work (dyno file included with 120 bhp). It retains it's original seats and door panels and even has an original hardtop. Ideal car to be enjoyed regularly and/or for classic events/rally's and a solid investment. The car comes with Italian title & FIA pass.
