

MERCEDES 500 SL - R129

This red 1990 MERCEDES 500SL - R129 is the 4th generation of the Mercedes SL Class. This 2 seater features modern technology and performance with the uncompromising Mercedes quality. With spotless and clean cream leather interior and wooden inlay in the central console. The R129 comes standard with both a flush fitting hard top and the first automatic (electro - hydraulic) convertible top in the industry, as well as automatic climate control. The engine is the 32 valve M119 - 5.0 liter - V8 unit producing 322 bhp and attached to a hydraulic 4 speed automatic gearbox. The 5.0 liter M119 is a complex dual overhead cam V8 with a perfect reputation for durability. This low mileage (only 59720 miles from new) is a well cared for example with 22 service history records on the official US Carfax. A well maintained R129 is one of today's most undervalued cars. And is still one of the most rewarding cars you can buy. And you can buy it for a price of a boring new economy sedan. A 500 sl gives you power and class from behind the steering wheel. This early example of the 500SL comes with a pre purchase check up. And a full carfax proving the full service records of the car and the low mileage. It was recently imported out of California, USA. Where it drove all the time. All taxes paid and registered on Belgian documents. This R129 comes with automatic climate control, leather upholstery, 10 way power seats with memory, audio, SRS with drivers airbag, automatic pop up roll bar, head lamp washers and wipers, removable hard top with electrical heated rear window and ARS (Automatic Slip Control). If you are looking around for a perfect, low mileage, full service R129 - 500 SL, this is the one to have!
