

## LOTUS ESPRIT S4

Beautiful black 1996 Lotus Esprit S4 with very clean and undamaged cream leather interior. Powered by the renowned Lotus 2.2 litre 16 valve turbo engine producing 264 hp and attached to a 5 speed manual gearbox.

The Esprit S4 was the latest evolution of the classic mid-engined performance cars by Lotus. Featuring a new stunning exterior and a refreshing new look interior. With major advances in its suspension and a range of other detail improvements. This gave the S4 world leading standards in handling, performance and style for which Lotus has become famous over the last 40 years. And for the first time in history the S4 was equipped with power steering. Beside that the standard equipment was: full Connolly leather interior, air conditioning, power windows and door locks, electrically operated fuel filler flaps, heated and electrically operated outside mirrors, tinted glass, airbags, kevlar and aluminum passenger safety cell, ABS.

This particular S4 was imported into the Netherlands in 1997 and bought by the current owner in 2015. He imported the car into Belgium and the car had a full check up by Lotus specialist Verbiest in Oostende. Including the chance of the distribution belt at 28.580 km. With only 30000 km in the odometer this car is in an almost perfect condition. In all its details. An unique opportunity. Only 625 Esprit S4 were built between 1992 and 1996.
