

PORSCHE 911 - 3.2 - G50

Amazing "Indischrot" 1987 Porsche 911 with clean and original "cream white" leather interior with black details. Power comes from the "matching numbers" flat six, air-cooled boxer engine with 3200 cc. Producing 230hp. Attached to the famous 5 speed G50 manual gearbox. Really the best possible variant of the classic G-Porsches.

This example was delivered to a Doctor in Germany at March 1987. And imported into Belgium during 1990. Where it received a certificate of conformity by D'leteren (the official Belgian importer of Porsche). Invoices from 1990 proof the mileage of the car then (61.400 km). The car has a fully documented Car-Pass starting from 2000 with 89.149 km and ending in 2016 with 121.525 km. Also recent service invoices really double check the original mileage of the car. Now 122.300 km. And not forget to mention that when measuring the paint thickness all around the car we can tell you that only the passenger door has been repainted once. All the rest of the body panels still wear its original and still perfect paintjob. To be honest. We have been driving 100's of Porsches during our careers. Well this is one of the best we have ever driven.

So if you are looking around for a perfect 1987 coupe with the amazing 3.2 engine and G50 gearbox, which has low (proofed) mileage and the original paintjob make asap an appointment with our sales team. Very hard to find in this condition and color setting. Really worth the investment.

Brand: Porsche

CAR CAVE

Type: 911 - 3.2 - G50
