

BMW M3 - E30 - CONVERTIBLE

Beautiful "Misano Red" 1988 BMW M3 E30 convertible with the optional silver grey nappa leather interior. Powered by the 4 cylinder in line 16 valve engine 2266 cc producing 200 bhp and attached to a manual 5 speed Getrag 265 gearbox.

Only 786 M3 E30 convertibles were produced during 1986-1990. All were lefthand drive and alle were European specifications. They were hand built on demand of the customers. This car is the first version : BB01 = ECE non catalyst = production only 136 cars. At that time it was the fastest 4 passenger convertible in production (235 km/h and acceleration from 0-100 km/h in 6.9 seconds). The M3 convertible differed from the rest of the E30 line-up in many ways. Although using the same basic shell as the standard E30, it was equipped with 12 different and unique body panels for the purpose of improving aerodynamics, as well as "box flared" wheel arches in the front and rear to accommodate a wider track and taller wheels and tyres.

The interior features sport seats and M steering wheel and M instrument dashboard. This car has the optional nappa leather upholstery with the M-Tricolor stripes on both front and rear seats. With power operated black canvas soft top. With a set recent 16 inch BBS wheels. The original 15 inch aluminium wheels are with the car. Extra options are Bavaria C Business Radio, heated seats and on board computer. The car also still has its complete toolbox.

Originally this car was supplied in Germany. Exported to Spain in 1995. Where it was part of a large private collection. The last owner serviced and cherished the car, which can be seen in the perfect overall condition it is in today.
