

## MERCEDES 280 SL W113

### 1969 Mercedes-Benz 280 SL W113 – A Classic Pagoda with Potential

This 1969 Mercedes-Benz 280 SL "Pagoda" is a fantastic opportunity for an enthusiast looking to bring a timeless classic back to its former glory. Originally delivered in California, this beauty has been in Belgium since 2005 with just one owner.

She runs and drives, and her technical report is still valid, proving she's in solid mechanical condition. While her paint has faded and the interior needs a refresh, her bones are strong, making her an ideal candidate for a light restoration or a full-fledged project.

Technically, she's not bad at all, and as a bonus, she comes with her hardtop, making her a versatile classic for all seasons. If you're looking for a driver-quality Pagoda with great potential—or a rewarding project to take on yourself—this is the one for you.

Serious inquiries only. Contact us for more details!
