

BMW 2002 Tii

Nice "cream white" 1972 BMW 2002 Tii with black and blue mixed semi-leather and cloth interior. Power comes from the reliable and famous 2.0 litre M10 overhead cam 4 cylinder engine with Kugelfischer (Bosch) mechanical fuel injection producing 130 bhp. Attached to a 4 speed manual gearbox, giving this sedan a top speed of 185 km/h.

With its lightweight body construction, four wheel independent suspension, rear wheel drive and front disc brakes, the 2002 Tii provides lively performance along with the practicality of a spacious 5 seat cabin and a large trunk. There was no other car at that time that could match this combination. This particular car was delivered in Spain in 1972 to a US soldier stationed in a military basis there. So all the buttons on the dashboard have English text such as: "wipers", "lights" etc... The car even has a warning light concerning the safety belts on the dash. At some point the owner returned to the US, the car however remained in Spain.

After a technical inspection in 1988 the 2002 Tii went in storage until 2015, when it was bought by a Spanish collector, who restored the car and put it back on the road. Invoices prove all the jobs done:

rebuilt injection pump cleaned fuel reservoir new timing belt injection pump, startermotor, exhaust, shock absorbers, 4 new Firestone tires, wheel bearings and brakes. full body respray

And as you know, once you have driven a BMW 2002Tii you will know why it is called "the original ultimate driving machine". Sensational handling. A car that has put BMW on the map. The Tii wants to go fast. It even looks fast standing still. Looking for one? Then! this is a unique opportunity.

CAR CAVE

Brand: BMW

Type: 2002 Tii

Engine: 2000 cc - Four in line - Kugelfischer mechanical injection - 130 hp

Year: 1972

Transmission: 4 speed manual gearbox
