

BMW 635 CSI

All original 1986 silver metallic (Lachssilber) BMW 635 CSI with a beautifully aged blue leather interior. The 2-door sports coupe is powered by the legendary 3428 cc straight-six engine producing 227 bhp and is attached to a 4 speed automatic gearbox with drive mode selector. This 635 CSI was originally supplied to Switzerland. In 2008 it was imported into the Netherlands. The complete service book and recent invoices are provided to prove the very low mileage and exceptional state of this car, it has only driven 91.000 km. It's loaded with almost every option that was available: beautiful set of aluminum wheels, electric sun roof, air conditioning, leather interior, power windows, electric adjustable and heated seats. Even the original toolkit is still there! Carcave proudly presents this unique opportunity to require an original low mileage example of this iconic 635 with a lot of options, in a very good condition. And most of all: it's fun to drive!
